

🇬🇧 DIPPACH: Where will we park ? Removal of parking spaces

For many years, the **Biergerinitiativ** has been asking for the renewal and securing of sidewalks along Dippach's main road.

In 2019, the present Mayor made a commitment on RTL stating that the sidewalks would be redeveloped in 2020. So far, nothing has been done.

BUT, a renovation project is underway. Further to a meeting with the Ministry of Mobility and Public Works, the **Biergerinitiativ** has learned that all parking spaces along the road from Luxembourg to Dippach (N5) are to be abolished.

This has been confirmed by the *Ponts et Chaussée* officials : no more cars should park from the roundabout to the descent of Dippach.

The municipality of Dippach never felt it necessary to inform the population, even though this is a fundamental change for the local residents !

Where will we park ?

The **Biergerinitiativ** asks that new parking spaces are created within the road's renovation project and that these spaces are for residents only

Changes in SCHOUWEILER

Changes are also planned in Schouweiler. According to *Ponts & Chaussées*, the development of a 30km/h zone would be planned between the pizzeria and the gas station (Longwy road).

According to the plans that we were able to consult at the Ministry, such a zone is also planned *rue de l'Eglise*.
